## INDEPENDENT AUDITOR'S REPORT

Board of Supervisors  
Brookshire-Katy Drainage District  
Waller County  
Brookshire, Texas

February 8, 2019

### **Report on the Financial Statements**

I have audited the accompanying financial statements of Brookshire-Katy Drainage District as of September 30, 2018, and for the thirteen months then ended, as listed in the table of contents which collectively comprise the District's basic financial statements.

### **Management's Responsibility for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### **Auditor's Responsibility**

My responsibility is to express opinions on these financial statements based on my audit. I conducted my audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, I express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinions.

## **Opinion**

In my opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of Brookshire-Katy Drainage District as of September 30, 2018, and the changes in financial position for the thirteen months then ended in accordance with U.S. generally accepted accounting principles.

## **Other Matters**

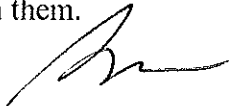

### Management's Discussion and Analysis

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis on pages 3 to 6 and Statement of Revenues, Expenditures and Changes in Fund Balance-Budget and Actual-General Fund, on page 22 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements is required by the Governmental Accounting Standards Board who considers them to be essential part of the financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. I have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to my inquiries, the basic financial statements and other knowledge I obtained during my audit of the basic financial statements. I do not express an opinion or provide any assurance on the information because the limited procedures do not provide me with sufficient evidence to express an opinion or provide any assurance.

### Supplementary and Other Information

My audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Brookshire-Katy Drainage District's basic financial statements. The supplementary information on pages 22 to 37 is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, I do not express an opinion or provide any assurance on them.

Bert D. Matthews  
Certified Public Accountant

## Brookshire – Katy Drainage District Management’s Discussion and Analysis

### Using this Annual Report

This discussion and analysis of the Brookshire-Katy Drainage District’s financial results is presented to provide an overview of the District’s financial activities for the 13 months ended September 30, 2018. It should be read in conjunction with the District’s audited financial statements.

The annual report consists of a series of financial statements plus additional supplemental information to the financial statements as required by its state oversight agency, the Texas Commission on Environmental Quality. In accordance with required reporting standards, the District reports its financial activities as a special-purpose government. Special-purpose governments are governmental entities which engage in a single governmental program, reclamation and drainage of its overflowed lands. The financial statements of special-purpose governments combine two types of financial statements into one statement. These two types of financial statements are the government-wide financial statements and the fund financial statements. The fund financial statements are presented on the left side of the statements, a column for adjustments is to the right of the fund financial statements, and the government-wide financial statements are presented to the right side of the adjustments column. The following sections describe the measurement focus of the two types of statements and the significant differences in the information they provide.

### Government-Wide Financial Statements

The focus of government-wide financial statements is on the overall financial position and activities of the District. The District’s government-wide financial statements include the Statement Of Net Assets and Statement Of Activities, which are prepared using accounting principles that are similar to a commercial enterprise. The Statement Of Net Assets reports all of the assets and liabilities owned by the District. The District reports all of its assets when it acquires or begins to maintain the assets and reports all of its liabilities when they are incurred.

The difference between the District’s total assets and total liabilities is labeled as net assets and this difference is similar to the total equity presented by a commercial enterprise.

The purpose of the Statement Of Activities is to present the revenues and expenses of the District. Again, the items presented on the Statement Of Activities are measured in a manner similar to the approach used by a commercial enterprise in that revenues are recognized when earned or established criteria are satisfied and expenses are reported when incurred by the District. Thus, revenues are reported even when they may not be collected for several months or years after the end of the accounting period and expenses are recorded even though they may not have used cash during the current period.

The statement of activities looks different from a commercial enterprise’s income statement, but it is different only in format, not substance. Whereas the bottom line in a commercial enterprise is its net income, the District reports an amount described as change in net assets, essentially the same thing.

These two statements report the District’s net assets and the annual changes in net assets. You can think of the District’s net assets (the difference between its assets and liabilities) as one aspect of measuring the District’s financial health (or financial position). Over time, increases or decreases in the District’s net assets are one indicator as to whether its financial health is improving or deteriorating. You also have to consider other factors, however, such as changes to its property tax base and the extent to which the services that the District’s provides are increasing or decreasing, to assess the overall health of the District.

## Management's Discussion and Analysis (continued)

### Fund Financial Statements

Unlike government-wide financial statements, the focus of fund financial statements is directed to specific activities of the District rather than the District as a whole. Except for the General Fund, a specific fund is established to satisfy managerial control over resources or to satisfy finance-related legal requirements established by external parties or governmental statutes or regulations. At this time, the District is only required to use the General Fund.

Governmental fund financial statements consist of a balance sheet and statement of revenues, expenditures and change in fund balances and are prepared on an accounting basis that is significantly different from that used to prepare the government-wide financial statements.

In general, these financial statements have a short-term emphasis and, for the most part, measure and account for cash and other assets that can easily be converted into cash. For example, amounts reported on the balance sheet include items such as cash and receivables collectible within a short period of time, but do not include capital assets such as land and depreciable assets. Fund liabilities include amounts that are to be paid within a short period after the end of the fiscal year. The difference between a fund's total assets and total liabilities is labeled the fund balance, and generally indicates the amount that can be used to assist in financing the next fiscal year's activities. Likewise, the operating statement for governmental funds reports only those revenues and expenditure that were collected in cash or paid with cash, respectively, during the current period or shortly after the end of the fiscal year.

As the focus of the government-wide and fund financial statements are different, there are significant differences between the totals presented in these financial statements. For this reason, there is an analysis on page 8 of the financial statements that reconcile the total fund balances to the amount of net assets presented in the governmental activities column on the statement of net assets. Also, there is an analysis on page 7 of the financial statements that reconciles the total change in fund balances for all governmental funds to the change in net assets as reported in the governmental activities column in the statement of activities.

### Financial Analysis of the District as a Whole

The District's overall financial position and operations for the past year is summarized as follows based on the information included in the government-wide financial statements.

	<u>Summary of Net Assets</u>	
	September 30 <u>2018</u>	August 31 <u>2017</u>
Current and other assets	\$ 4,196,369	\$ 2,716,993
Capital assets	449,675	479,132
Total assets	<u>4,646,044</u>	<u>3,196,125</u>
Contribution to pension plan in current fiscal year	21,531	20,305
Differences between projected & actual experience	60,494	65,212
Changes in Assumptions	13,602	5,395
Differences between projected & actual earnings on pension plan	(7,567)	40,880
Total Deferred Outflows	<u>88,060</u>	<u>131,792</u>
Long-term liabilities	-0-	-0-
Other liabilities	134,066	210,989
Total liabilities	<u>134,066</u>	<u>210,989</u>

**Management's Discussion and Analysis (continued)**

Deferred property tax revenues	1,639,221	13,563
Total Deferred Inflows	<u>1,639,221</u>	<u>13,563</u>
Net assets:		
Invested in capital assets		
Net of related debt	449,675	479,131
Unrestricted	<u>2,511,142</u>	<u>2,624,234</u>
Total net assets	<u>\$ 2,960,817</u>	<u>\$ 3,103,365</u>

**Summary of Changes In Net Assets**

	September 30 <u>2018</u>	August 31 <u>2017</u>	<u>NET CHANGE</u>
Revenues:			
Property taxes	\$ 1,204,052	\$ 1,239,077	\$ (35,025)
Other revenues	127,644	75,497	52,147
Total revenues	<u>1,331,696</u>	<u>1,314,574</u>	<u>17,122</u>
Expenses:			
Operations	1,444,787	1,141,705	303,082
Debt service	-0-	-0-	-0-
Total expenses	<u>1,444,787</u>	<u>1,141,705</u>	<u>303,082</u>
Change in net assets	(113,091)	172,869	(285,960)
Net assets, beginning of year	<u>3,116,928</u>	<u>2,957,514</u>	<u>159,414</u>
Net assets, end of year	<u>\$ 3,003,837</u>	<u>\$ 3,130,383</u>	<u>\$ (126,546)</u>

**Financial Analysis of the District's Funds**

The District's combined fund balances as of the end of the fiscal year ended September 30, 2018 were \$ 3,003,837, a decrease of \$ (113,091) from the prior year.

The General Fund balance (the only fund used by the District) decreased by \$ (113,091), primarily due to minimal increases in tax collections and to an increase in engineering expenditures.

The District realized the following significant variances with its budget in its current year's operations:

1. Favorable variances:

- a. Salaries were less than the budget primarily due to the year-end adjustment for the calculation of pension expense provided in the actuarial calculations provided from TCDRS.

Management's Discussion and Analysis (continued)

2. Unfavorable variances:

- a. Amounts in excess of budget for operating expenses were due to the fact that the final budget was for 12 months and the operating period was for 13 months.

Capital Asset and Debt Administration

Capital Assets

Capital assets held by the District at the end of the current and previous fiscal year are summarized as follows:

	<u>Capital Assets (Net of Accumulated Depreciation)</u>		
	<u>2018</u>	<u>2017</u>	<u>Change</u>
Land	\$ 50,362	\$ 50,362	\$ -0-
Buildings	134,972	140,669	(6,697)
Equipment & Other	<u>264,341</u>	<u>287,101</u>	<u>(22,760)</u>
Total	<u>\$ 449,675</u>	<u>\$ 479,132</u>	<u>\$ (29,457)</u>

During the current year, changes to capital assets were as follows:

Additions:

Other (including construction in progress)	\$ 12,332
Total additions to capital assets	<u>12,332</u>

Decreases:

Depreciation	<u>41,789</u>
Net change to capital assets	<u>\$ (29,457)</u>

Debt:

The District had no long-term debt at any time in the current year.

Amounts reported for governmental activities in the statement of activities are different because:

Net changes in fund balances-total governmental funds	\$	(113,091)
---	----	-----------

Governmental funds report capital outlays as expenditures but the statement of activities amortize their cost over their estimated useful lives. Capital outlays exceeded depreciation in this year.

Capitalized assets	12,332		
Depreciation expense	<u>(41,789)</u>	(29,457)	

Revenues in the statement of activities that do not provide current financial resources		<u>1,625,658</u>
	\$	<u>1,483,110</u>

BROOKSHIRE-KATY DRAINAGE DISTRICT  
NOTES TO FINANCIAL STATEMENTS  
SEPTEMBER 30, 2018

NOTE 1 - CREATION OF DISTRICT

The Brookshire-Katy Drainage District was created in 1961 under the provisions of Section 59, Article XVI, Constitution of Texas by the Texas Legislature as a Conservation and Reclamation District in Waller County, Texas. This District was created for the purpose of the reclamation and drainage of its overflowed lands and other lands needing drainage. The management and control of the District is vested in a Board of five elected Supervisors. The Assessor and Collector of taxes of Waller County is the Assessor and Collector of taxes for the District. Taxes are levied and collected under the provisions of the General Laws applicable to fresh water districts. The District operates under Water Code Chapter 53 as a drainage district with operating authority of Chapter 53 and with the limitation that it cannot sell water or sewer services. When an election is required by the General Laws before taxes may be levied, the District must hold an election. In 1965 the Legislature gave the District the power to levy a tax rate no higher than 75 cents.

All activities on which the District exercises responsibility have been included in the District's financial statements, for the 13 months ended September 30, 2018. The following criteria was considered by the District in its evaluation of District organization and activities:

Financial interdependency - The District is responsible for its debts and is entitled to surpluses. No separate agency receives a financial benefit nor imposes a financial burden on the District.

Election of the government authority - The locally elected Board of Supervisors is exclusively responsible for all public decisions and accountable for the decisions it makes.

Designation of management - The Board of Supervisors appoints the District Superintendent. The Board of Supervisors also approves the hiring of all other employees. The activities under the review of the District Superintendent are within the scope of the reporting entity, and he is accountable to the Board of Supervisors for the activities being managed.

Ability to significantly influence operations - The Board of Supervisors has the statutory authority under the provisions of the Constitution of Texas as a Conservation and Reclamation District to significantly influence operations. This authority includes, but is not limited to, adoption of the budget, control over all assets, including facilities and properties, signing contracts, and developing the projects to be completed and maintained.

Accountability of fiscal matters - The responsibility and accountability over all funds is vested in the Board of Supervisors.

Component Units - There are no component units which should be included in the financial statements.

BROOKSHIRE-KATY DRAINAGE DISTRICT  
 NOTES TO FINANCIAL STATEMENTS  
 SEPTEMBER 30, 2018

(Continued)

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The District's financial statements are prepared in accordance with generally accepted accounting principles ("GAAP"). The Governmental Accounting Standards Board (the "GASB") is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations). Governments are also required to follow the pronouncements of the Financial Standards Board issued through November 30, 1989 (when applicable) that do not conflict with or contradict GASB pronouncements. The more significant accounting policies established in GAAP and used by the District are discussed below.

In June 1999, the GASB unanimously approved Statement No. 34, Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments (the "Statement"). The District implemented the Statement on September 1, 2003. Significant changes made by the Statement include:

A Management Discussion and Analysis (MD&A) section providing an analysis of the District's overall financial position and results of operations.

Government-wide financial statements prepared using full accrual accounting for all of the District's activities, including capital assets and long-term liabilities.

Financial reporting information pertaining to the district's participation in the Texas County and District Retirement System ("TCDRS") is prepared in accordance with Governmental Accounting Standards Board ("GASB") Statement No. 68, *Accounting and Financial Reporting for Pensions*, as amended by GASB Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date*.

The fiduciary net position, as well as additions to and deductions from the fiduciary net position, of TCERS have been determined on the same basis as they are reported by TCERS. The financial statements were prepared using the accrual basis of accounting. Member and employer contributions are recognized when due, pursuant to formal commitments and statutory requirements. Benefits and refunds of employee contributions are recognized when due and payable in accordance with the statutes governing TCERS. Expenses are recognized when the liability is incurred, regardless of when payment is made. Investments are reported at fair value on a trade date basis. The fiduciary net position is reflected in the measurement of the district's net pension liability, deferred outflows and inflows of resources related to pensions, and pension expense.

Change in Accounting Principle

Net position as of September 1, 2014, has been restated as follows for implementation of GASB Statement No. 68, as amended by GASB Statement No. 71.

Net Position as previously reported at August 31, 2014:	1,986,757
Prior period adjustment:	
Net Pension Liability (measurement date as of December 31, 2013)	(3,472)
Deferred Outflows:	
District contributions made during fiscal year 2014	38,851
Total prior period adjustment	<u>35,379</u>
Net Position as restated September 1, 2014	<u>2,022,138</u>

BROOKSHIRE-KATY DRAINAGE DISTRICT  
NOTES TO FINANCIAL STATEMENTS  
SEPTEMBER 30, 2018

(Continued)

Basic Financial Statements

The District's basic financial statements include both government-wide (reporting the District as a whole) and governmental fund financial statements (reporting the District's funds). Because the District is a single-program government as defined by the GASB, the District has combined the government-wide statements and the fund financial statements using a columnar format that reconciles individual line items of fund financial data to government-wide data in a separate column on the face of the financial statements. An additional reconciliation between the fund and the government-wide financial data is presented in Note 3.

The government-wide financial statements (i.e., the statement of net assets and statement of activities) report information on all the non-fiduciary activities of the District. The effect of interfund activity has been removed from these statements. The District's net assets are reported in three parts - invested in capital assets, net of related debt; restricted net assets; and unrestricted net assets. The District first utilizes restricted resources to finance qualifying activities. The government-wide statement of activities reports the components of the changes in net assets during the reporting period.

The financial transactions of the District are reported in individual funds in the fund financial statements. Each fund is accounted for in a separate set of self-balancing accounts that comprises its assets, liabilities, fund balances, revenues and expenditures and changes in fund balances. The District's fund balances are reported as reserved or unreserved. Fund balances are reserved to indicate that portion of the fund balance which is not available for expenditure or is legally segregated for a specific future use. The transactions of the District are accounted for in the following funds:

General Fund - To account for all revenues and expenditures not required to be accounted for in other funds. The District uses only the General Fund.

Basis of Accounting

The government-wide statements are reported using the economic resources measurement focus and the accrual basis of accounting which recognizes all long-term assets and receivables as well as long-term debt and obligations. Revenues are recorded when earned and expenses are recorded when a liability is incurred regardless of the timing of related cash flows. Ad valorem property taxes are recognized as revenues in the fiscal year for which they have been levied and related penalties and interest are recognized in the fiscal year in which they are imposed. An allowance for uncollectibles is estimated for delinquent property taxes and reported separately in the financial statements.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available if they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. Expenditures generally are recorded when the liability is incurred except for principal and interest on bonds payable which are recorded only when payment is due.

BROOKSHIRE-KATY DRAINAGE DISTRICT  
NOTES TO FINANCIAL STATEMENTS  
SEPTEMBER 30, 2018

(Continued)

Interfund Activity

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are reported as interfund receivables or payables, as are all other outstanding balances between funds. Operating transfers between funds represent legally authorized transfers from the fund receiving resources to the fund through which the resources are to be expended.

Receivables

In the fund financial statements, ad valorem taxes and penalties and interest are reported as revenues in the fiscal year in which they become available to finance expenditures of the fiscal year for which they have been levied.

Deferred Tax Revenues

The District defers the recognition of property taxes that are unreserved and outstanding for in excess of one year. These "deferred taxes" will be reported when collected or reserved as uncollectible in future years. It has been the District's experience that the "availability" of taxes over one year old is not absolute.

Capital Assets

Capital assets, which include property, plant, equipment, and immovable public domain or "infrastructure" assets are reported in the government-wide financial statements. Capital assets are defined by the District as assets with an initial individual cost of more than \$1,000 (including installation costs, if any, and associated professional fees) and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed by the District. Donated capital assets are recorded at historical cost. Additions, improvements and other capital outlays that significantly extend the useful life of an asset or increase the value of an asset are capitalized. Cost incurred for repairs and maintenance are expensed as incurred.

Depreciation on capital assets is computed using the straight-line method over the following estimated useful lives:

Infrastructure	5-12	Years
Furniture & Fixtures	7	Years
Equipment	12	Years
Tools	7	Years
Trucks & Trailers	5	Years
Building	50	Years
Improvements	10	Years

Long-term Liabilities

Long-term debt and other long-term obligations are reported in the government-wide financial statements. Bond premiums and discounts as well as insurance costs are deferred and amortized over the life of the bonds. Bonds payable are reported net of the applicable premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt. If bonds are refunded and the carrying amount of the new debt is different than the net carrying amount of the old

BROOKSHIRE-KATY DRAINAGE DISTRICT  
NOTES TO FINANCIAL STATEMENTS  
SEPTEMBER 30, 2018

(Continued)

debt, the difference is netted against the new debt and amortized using the effective interest method over the shorter of the remaining life of the refunded debt or the life of the new debt issued.

In the fund financial statements, governmental funds recognize bond premiums and discounts, as well as bond issuance cost, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as expenditures of the fund from which they are paid.

Budgets

The District follows these procedures in establishing the budgetary data reflected in the financial statements:

1. Prior to September 1 the Board of Supervisors prepares and adopts an operating budget for the fiscal year commencing September 1. The operating budget includes proposed expenditures and the means of financing them. Budget for the General Fund is adopted on a basis consistent with generally accepted accounting principles (GAAP).
2. Budget amounts are as originally adopted, or as amended. Individual amendments were not material in relation to the original appropriations.
3. The Budget is based upon the estimated collection of taxes provided by the current tax levy. The Budget is a process of estimation by the Board of Supervisors to aid them in decisions throughout the year, and adhering to it is not mandatory.

NOTE 3 - CAPITAL ASSETS

On September 30, 2018, "Invested in Capital Assets, net of related debt" was \$449,675. Capital asset activity for the year then ended is summarized in Schedule E.

NOTE 4 - CASH AND INVESTMENTS

Investments are made in TexPool. The State Comptroller of Public Accounts exercises oversight responsibility over TexPool, the Texas Local Government Investment Pool. Oversight includes the ability to significantly influence operations, designation of management and accountability for fiscal matters. Additionally, the State Comptroller has established an advisory board composed of both Participants in TexPool and other persons who do not have a business relationship with TexPool. The Advisory Board members review the investment policy and management fee structure. Finally, TexPool is rated AAA by Standard & Pools. As a requirement to maintain the rating weekly portfolio, information must be submitted to Standard & Pools, as well as the office of the Comptroller of Public Accounts for review.

TexPool operates in a manner consistent with the SEC's Rule 2a7 of the Investment Company Act of 1940. TexPool uses amortized cost rather than market value to report

BROOKSHIRE-KATY DRAINAGE DISTRICT  
NOTES TO FINANCIAL STATEMENTS  
SEPTEMBER 30, 2018

(Continued)

net assets to compute share prices. Accordingly, the fair value of the position in TexPool is the same as the value of TexPool shares.

Cash and investments stated at cost consisted of the following:

Cash in banks	\$ 574,007
Cash in TexPool Fund	2,819
Certificate of Deposit	1,963,996
Petty Cash & Undeposited	
Taxes Collected	<u>200</u>
	<u>\$ 2,541,022</u>

All cash in banks is fully collateralized.

NOTE 5 - PROPERTY TAX

Key dates in the property tax calendar are as follows:

- A. Levy date - October 1
- B. Due date - October 1
- C. Collection dates - October 1 through January 31
- D. Lien date - February 1

The Assessor - Collector of Taxes of Waller County is the Assessor - Collector of Taxes for the District. All records of property ownership, property levies, payment, collection, and delinquencies are maintained by Waller County. Taxes are levied and collected under the provisions of the General Laws applicable to fresh water districts, and when an election is required by the General Laws before taxes may be levied, the District must hold an election. The total amount of taxes levied by the District for all purposes shall never in any one year exceed thirty-five cents on the one-hundred dollar valuation of taxable property within the District. The current year property tax description is as follows:

- A. Tax rate per \$100 of assessed valuation - \$ .072000
- B. Adjusted taxable valuation - \$ 2,075,246,471
- C. Amount of tax levy - \$ 1,604,910

Note 6 - PENSION PLAN

Plan Description

Brookshire-Katy Drainage District provides retirement, disability, and death benefits for all of its full-time employees through a nontraditional defined benefit pension plan in the statewide Texas County and District Retirement System (TCDRS). The Board of Trustees of TCERS is responsible for the administration of the statewide agent multiple-employer public employee retirement system consisting of 554 nontraditional defined benefit pension plans. TCERS in the aggregate issues a comprehensive annual financial report (CAFR) on a calendar year basis. The CAFR is available upon written request from the Board of Trustees at P.O. Box 2034, Austin, Texas 78768-2034.

The plan provisions are adopted by the governing body of the employer, within the options available in the Texas state statutes governing TCERS. Members can retire at ages 60 and above with 10 or more years of service, with 30 years of service regardless of age, or when the sum of their age and years of service equals 80 or more. Members

BROOKSHIRE-KATY DRAINAGE DISTRICT  
NOTES TO FINANCIAL STATEMENTS  
SEPTEMBER 30, 2018

(Continued)

are vested after 10 years of service but must leave their accumulated contributions in the plan to receive any employer-financed benefit. Members who withdraw their personal contributions in a lump sum are not entitled to any amounts contributed by their employer.

Benefit amounts are determined by the sum of the employee's contributions to the plan, with interest, and employer-financed monetary credits. The level of these monetary credits is adopted by the governing body of the employer within the actuarial constraints imposed by the TCDRS Act so that the resulting benefits can be expected to be adequately financed by the employer's commitment to contribute. At retirement, death, or disability, the benefit is calculated by converting the sum of the employee's accumulated contributions and the employer-financed monetary credits to a monthly annuity using annuity purchase rates prescribed by the TCDRS Act.

Funding Policy

The employer has chosen a fixed rate plan under the provisions of the TCDRS Act. The plan is funded by monthly contributions from both employee members and the employer based on the covered payroll of the employee members. Under the TCDRS Act, the regular 6.75% contribution rate of the employer is a fixed percent. The employees fixed rate was 6.00% contribution rate payable by the employee members as adopted by the governing body of the employer. This regular contribution rate of the employer is not actuarially determined and is one of the rates that can be adopted in accordance with the TCDRS Act. However, the plan of benefits adopted by the employer at the time of plan inception or when benefit increases were adopted, was limited by the TCDRS Act to what the actuary determined could be adequately financed by the commitment of the employer to contribute the same amount as the employees. The employee contribution rate and the employer contribution rate may be changed by the governing body of the employer within the options available in the TCDRS Act.

If a plan has adverse experience, the TCDRS Act has provisions in which allow the employer to contribute a fixed supplemental contribution rate determined by System's actuary above the regular rate for 25 years or to reduce benefits earned in the future.

Pension Liabilities, Pension Expenses, and Deferred Out Flows of Resources and Deffered Inflows

At September 30, 2018, the district recorded a liability of \$102,233 for the net pension liability. The net pension liability for the plan in total was measured as of December 31, 2017 and determined by an actuarial valuation as of that date.

For the period ended September 30, 2018, the district recognized a pension expense of \$49,290.

At September 30, 2018, we reported deferred outflows of resources and deferred inflows of resources from the following sources related to TCDRS pension benefits:

BROOKSHIRE-KATY DRAINAGE DISTRICT  
 NOTES TO FINANCIAL STATEMENTS  
 SEPTEMBER 30, 2018

(Continued)

	<u>Deferred Outflows Of Resources</u>	<u>Deferred Inflows Of Resources</u>
Balance of Deferred Outflow and Inflows Due to:		
Differences between expected and actual Experience	\$ 60,494	\$ 0
Changes of assumption	13,602	0
Net difference between projected and actual Earnings on pension plan investments	-0-	7,567
Employer contributions after the plan yearend	<u>21,531</u>	<u>0</u>
<b>Total</b>	<b><u>\$ 95,627</u></b>	<b><u>\$ 7,567</u></b>

\$ 21,531 reported as deferred outflows of resources to pensions resulting from contribution subsequent to the measurement date will be recognized as a reduction to the net liability in the year ended September 30, 2019. Other amounts reported as collective deferred (inflows)/ outflows of resources to be recognized in pension expenses:

Period Ending December 31:

2018	\$ 31,233
2019	24,626
2020	13,414
Thereafter	<u>(2,745)</u>
	<b><u>\$ 66,528</u></b>

Actuarial Assumptions

Actuarial valuations of TCDRS involves estimates of the reported amount and assumptions about probability of occurrences of events far into the future. Examples include assumptions about future employment mortality and future salary increases. Amount determined regarding the net pension liability are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The last experience study was conducted for the four years ending December 31, 2016.

Significant actuarial assumptions and other inputs used to measure the total pension liability:

Measurement Date	December 31, 2017
Valuation Date	December 31, 2017
Expected Return on Investment	8.0% net of investment expenses
Inflation	2.75%
Total Payroll Growth	0.0%

BROOKSHIRE-KATY DRAINAGE DISTRICT  
NOTES TO FINANCIAL STATEMENTS  
SEPTEMBER 30, 2018

(Continued)

Future Salary Increases	4.9%, depending on age and service and including inflation.
Mortality Assumption Activities:	90% of the RP-2014 Active Employee Mortality Table for males and 90% of the Active Employee Mortality Table for females, projected with 110% of the MP-2014 Ultimate scale after 2014.
Non-Disabled Retirees Beneficiaries and Survivors:	130% of the RP-2014 Healthy Annuitant Table for males and 110% of the RP-2014 Healthy Annuitant Mortality Table for females, both projected with 110% of the MP-2014 Ultimate scale after 2014.
Disabled Retirees:	130% of the RP-2014 Disabled Annuitant Mortality Table for males and 115% of the RP-2014 Disabled Annuitant Mortality Table for females, both projected with 110% of the MP-2014 Ultimate scale after 2014.
Changes in Actuarial Methods and Assumptions	There were no changes in actuarial assumptions or methods for December 31, 2017 valuation.
Discount Rate	The discount rate used to measure the total pension liability was 8.1% as of December 31, 2017, and is consistent with long-term expected geometric return on plan investments. The projection of cash flows used to determine the discount rate assumed that employer contributions would be made at the actuarially calculated rate computed in accordance with assumptions and methods stated in the funding policy adopted by the Board of Trustees, which requires payment of the normal cost and amortization of the unfunded actuarially accrued liability in level percent of employee payroll installments over 20 years utilizing a closed period, layered approach. Based on this assumption, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members.

BROOKSHIRE-KATY DRAINAGE DISTRICT  
 NOTES TO FINANCIAL STATEMENTS  
 SEPTEMBER 30, 2018

NOTES TO FINANCIAL STATEMENTS  
SEPTEMBER 30, 2018

(Continued)

Risk Management

The District is exposed to various risks of loss related to torts; damage to, and theft or destruction of assets; errors and omissions; injuries to employees and natural disaster. During 2018, the District contracted with the Texas Water Conservation Association for liability, property, and crime damage. Coverages provided by the company are as follows:

Public Official Errors and Omissions Liability (Per occurrence)	\$ 10,000,000
Business Auto Coverage Liability Combined	10,000,000
Commercial General Liability	10,000,000
Commercial Property (Per occurrence)	961,162
Workers Compensation	Statutory
Employee Dishonesty (Per occurrence) - Contracted with CNA Surety	100,000

The District has had no significant reduction in insurance coverage from prior years. The District has had no settlements exceed insurance coverage for the past seven years.

Pending Litigation

As of September 30, 2018, the District has no pending lawsuits that could materially impact the financial statements.

Other Matters

In 2018, the Board elected to change its yearend to September 30, 2018 which resulted in an accounting period of thirteen months for the current fiscal period.

In 2018, the Board, after obtaining an outside legal opinion, elected to calculate its rollback taxes pursuant to Chapter 49 of the Texas Water Code.

LONG-TERM EXPECTED RATE OF RETURN  
FOR THE PERIOD ENDED SEPTEMBER 30, 2018  
SCHEDULE K**

The long-term expected rate of return on TCDRS assets is determined by adding expected inflation to expected long-term real returns, and reflecting expected volatility and correlation. The capital market assumptions and information shown below are provided by TCDRS' investment consultant, Cliffwater LLC. The numbers shown are based on January 2018 information for a 10 year time horizon.

Note that the valuation assumption for long-term expected return is re-assessed at a minimum of every four years, and is set based on a 30-year time horizon; the most recent analysis was performed in 2017. See Millimans's TCDRS Investigation of Experience report for the period January 1, 2013 - December 31, 2016 for more details.

Members of the Board  
Brookshire-Katy Drainage District  
Waller County, Texas

Members of the Board:

In the planning and performing my audit of the General Purpose Financial Statements of Brookshire-Katy Drainage District as of and for the 13 months ended September 30, 2018, in accordance with auditing standards generally accepted in the United States of America, I consider Brookshire-Katy Drainage District's internal control over financial reporting (internal control) as a basis for designing my auditing procedures for the purpose of expressing my opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, I do not express an opinion on the effectiveness of the District's internal control.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course in performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the entity's financial statements that is more than inconsequential will not be prevented or detected by the entity's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented by the entity's internal control.

My consideration of internal control was for the limited purpose described in the first paragraph and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses, as defined above. I did not identify any deficiencies in internal control that I consider to be material weaknesses, as defined above.

This communication is intended solely for the information and use of management, the Board of Supervisors, and others within the organization and is not intended to be and should not be used by anyone other than these specified parties.

In the course of the audit, I noted no items that I felt necessary to report to the Board of Supervisors.

---

COMPLIANCE REPORT BASED ON AN AUDIT OF  
FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE  
WITH GENERALLY ACCEPTED AUDITING STANDARDS

I have audited the financial statements of Brookshire-Katy Drainage District, as of and for the year ended September 30, 2018, and have issued my report thereon dated February 8, 2019.

I conducted my audit in accordance with generally accepted auditing standards. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

Compliance with laws, regulations, contracts, and grants applicable to the Brookshire-Katy Drainage District, is the responsibility of Brookshire-Katy Drainage District management. As part of my audit, I assessed the risk that noncompliance with certain provisions of laws, regulations, contracts, and grants could cause the financial statements to be materially misstated. I concluded that the risk of such material misstatement was sufficiently low that it was not necessary to perform tests of the District's compliance with such provisions of the laws, regulations, contracts, and grants.

However, in connection with my audit, nothing came to my attention that caused me to believe that Brookshire-Katy Drainage District had not complied, in all material respects, with the laws, regulations, contracts, and grants referred to in the preceding paragraph.

This report is intended for information of management and the Texas Commission on Environmental Quality. This restriction is not intended to limit the distribution of this report, which is a matter of public record.
