## INPEPENDENT AUDITOR'S REPORT

**Board of Supervisors  
Brookshire-Katy Drainage District  
Waller County  
Brookshire, Texas**

**January 16, 2026**

### **Report on the Audit of the Financial Statements**

#### ***Opinions***

We have audited the accompanying financial statements of the governmental activities, and each major fund of the Brookshire-Katy Drainage District ("District") as of and for the year ended September 30, 2025, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, and each major fund of the District as of September 30, 2025, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### ***Basis for Opinions***

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Brookshire-Katy Drainage District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### ***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Brookshire-Katy Drainage District to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

#### ***Auditor's Responsibilities for the Audit of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Brookshire-Katy Drainage District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Brookshire-Katy Drainage District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

#### ***Required Supplementary Information***

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information on pages 4-7 and 25 be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### ***Supplementary Information***

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Brookshire-Katy Drainage District's basic financial statements. The accompanying supplemental information on pages 26-39 are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

***Other Reporting Required by Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated January 16, 2026 on our consideration of the Brookshire-Katy Drainage District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Brookshire-Katy Drainage District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Brookshire-Katy Drainage District's internal control over financial reporting and compliance.

## **Brookshire – Katy Drainage District Management’s Discussion and Analysis**

### Using this Annual Report

This discussion and analysis of the Brookshire-Katy Drainage District’s financial results is presented to provide an overview of the District’s financial activities for the year ended September 30, 2025. It should be read in conjunction with the District’s audited financial statements.

The annual report consists of a series of financial statements plus additional supplemental information to the financial statements as required by its state oversight agency, the Texas Commission on Environmental Quality. In accordance with required reporting standards, the District reports its financial activities as a special-purpose government. Special-purpose governments are governmental entities which engage in a single governmental program, reclamation and drainage of its overflowed lands. The financial statements of special-purpose governments combine two types of financial statements into one statement.

### Government-Wide Financial Statements

The focus of government-wide financial statements is on the overall financial position and activities of the District. The District’s government-wide financial statements include the Statement of Net Position and Statement of Activities, which are prepared using accounting principles that are similar to a commercial enterprise. The Statement of Net Position reports all of the assets and liabilities owned by the District. The District reports all of its assets when it acquires or begins to maintain the assets and reports all of its liabilities when they are incurred.

The difference between the District’s total assets and total liabilities is labeled as net position and this difference is similar to the total equity presented by a commercial enterprise.

The purpose of the Statement of Activities is to present the revenues and expenses of the District. Again, the items presented on the Statement of Activities are measured in a manner similar to the approach used by a commercial enterprise in that revenues are recognized when earned or established criteria are satisfied and expenses are reported when incurred by the District. Thus, revenues are reported even when they may not be collected for several months or years after the end of the accounting period and expenses are recorded even though they may not have used cash during the current period.

The Statement of Activities looks different from a commercial enterprise’s income statement, but it is different only in format, not substance. Whereas the bottom line in a commercial enterprise is its net income, the District reports an amount described as change in net assets, essentially the same thing.

These two statements report the District’s net assets and the annual changes in net assets. You can think of the District’s net assets (the difference between its assets and liabilities) as one aspect of measuring the District’s financial health (or financial position). Over time, increases or decreases in the District’s net assets are one indicator as to whether its financial health is improving or deteriorating. You also have to consider other factors, however, such as changes to its property tax base and the extent to which the services that the District provides are increasing or decreasing, to assess the overall health of the District.

### Fund Financial Statements

Unlike government-wide financial statements, the focus of fund financial statements is directed to specific activities of the District rather than the District as a whole. Except for the General Fund, a specific fund is established to satisfy managerial control over resources or to satisfy finance-related legal requirements established by external parties or governmental statutes or regulations. At this time, the District utilizes the General Fund, a Grant Fund, a Building Fund, and a Capital Projects Fund. During the current year, the District did transfer funds from the General Fund to the Building Fund and Grant Fund to assist in the purpose of each respective Fund.

**Brookshire – Katy Drainage District  
Management’s Discussion and Analysis  
(Continued)**

Governmental fund financial statements consist of a balance sheet and statement of revenues, expenditures and change in fund balances and are prepared on an accounting basis that is significantly different from that used to prepare the government-wide financial statements.

In general, these financial statements have a short-term emphasis and, for the most part, measure and account for cash and other assets that can easily be converted into cash. For example, amounts reported on the balance sheet include items such as cash and receivables collectible within a short period of time, but do not include capital assets such as land and depreciable assets. Fund liabilities include amounts that are to be paid within a short period after the end of the fiscal year. The difference between a fund’s total assets and total liabilities is labeled the fund balance, and generally indicates the amount that can be used to assist in financing the next fiscal year’s activities. Likewise, the operating statement for governmental funds reports only those revenues and expenditure that were collected in cash or paid with cash, respectively, during the current period or shortly after the end of the fiscal year.

As the focus of the government-wide and fund financial statements are different, there are significant differences between the totals presented in these financial statements. For this reason, there is an analysis on page 11 of the financial statements that reconciles the total fund balances to the amount of net assets presented in the governmental activities column on the statement of net assets. Also, there is an analysis on page 13 of the financial statements that reconciles the total change in fund balances for all governmental funds to the change in net assets as reported in the governmental activities column in the statement of activities.

Financial Analysis of the District as a Whole

The District’s overall financial position and operations for the past year is summarized as follows based on the information included in the government-wide financial statements.

**Summary of Net Assets**

	<u>September 30, 2025</u>	<u>September 30, 2024</u>

**Brookshire – Katy Drainage District  
Management’s Discussion and Analysis  
(Continued)**

Financial Analysis of the District’s Funds

The District’s combined net assets as of the end of the fiscal year ended September 30, 2025 were \$ 12,670,466, an increase of \$2,840,634 from the prior year.

The District realized the following variances with its budget in its current year’s operations:

1. The Board creates the budget with the General Fund in mind. They use the Capital Outlay budget line item to show the budgeted transfer from the General Fund to specific funds, including but not limited to the Building Fund. Over the past few years, the Board has used this method to save for the new administration building. With the construction of the new administration building nearing completion, the variance reflected in this budget line item shows the usage of the Building Funds in accordance with the Building Fund’s designated purpose.
2. The favorable variance of Permit & Inspection Fees is due to an increase in permitting because of development and growth in the Brookshire-Katy Drainage District.
3. The favorable variance for Legal & Professional Services and Penalties and Interest Income is due to the civil penalties assessed in enforcement agreements and for reimbursed expenses as noted in Note 8.
4. The favorable variance for the Salaries was partially due to the adjustment of pension liability per TCDRS actuaries.
5. The favorable variance for the Grant Revenue is due to the budget being approved prior to the District receiving the grant.
6. The favorable variance in Lease Payment and Interest Expense is due to the capitalization of equipment in accordance with accounting standards instead of expensing the equipment.

Capital Asset and Debt Administration

During last fiscal year, the District began construction on a new administration building. The District expects completion within the next 12 months. Capital assets held by the District at the end of the current and previous fiscal year are summarized as follows:

	<u>Capital Assets (Net of Accumulated Depreciation)</u>		
	<u>2025</u>	<u>2024</u>	<u>Change</u>
Land	\$ 862,130	\$ 862,130	\$ -
Buildings	2,271,379	1,258,783	1,012,596
Equipment & Other	<u>1,279,640</u>	<u>1,375,726</u>	<u>(96,086)</u>
Total	<u>\$ 4,413,149</u>	<u>\$ 3,496,639</u>	<u>\$ 916,510</u>

During the current year, changes to capital assets were as follows:

Decreases:

Capital outlay, net of retirements	\$ 1,032,353
Depreciation, net of retirements	<u>(115,843)</u>
Net change to capital assets	<u>\$ 916,510</u>

**BROOKSHIRE-KATY DRAINAGE DISTRICT**  
**NOTES TO FINANCIAL STATEMENTS**  
**SEPTEMBER 30, 2025**

NOTE 1 - CREATION OF DISTRICT

The Brookshire-Katy Drainage District was created in 1961 under the provisions of Section 59, Article XVI, Constitution of Texas by the Texas Legislature as a Conservation and Reclamation District in Waller County, Texas. This District was created for the purpose of the reclamation and drainage of its overflowed lands and other lands needing drainage. The management and control of the District is vested in a Board of five elected Supervisors. The Assessor and Collector of taxes of Waller County is the Assessor and Collector of taxes for the District. Taxes are levied and collected under the provisions of the General Laws applicable to fresh water districts. The District operates under Water Code Chapter 53 as a drainage district with operating authority of Chapter 53 and with the limitation that it cannot sell water or sewer services. When an election is required by the General Laws before taxes may be levied, the District must hold an election. In 1965 the Legislature gave the District the power to levy a tax rate no higher than 75 cents.

All activities on which the District exercises responsibility have been included in the District's financial statements, for the year ended September 30, 2025. The following criteria was considered by the District in its evaluation of District organization and activities:

Financial interdependency – The District is responsible for its debts and is entitled to surpluses. No separate agency receives a financial benefit nor imposes a financial burden on the District.

Election of the government authority – The locally elected Board of Supervisors is exclusively responsible for all public decisions and accountable for the decisions it makes.

Designation of management – The Board of Supervisors appoints the District Superintendent. The Board of Supervisors also approves the hiring of all other employees. The activities under the review of the District Superintendent are within the scope of the reporting entity, and he is accountable to the Board of Supervisors for the activities being managed.

Ability to significantly influence operations – The Board of Supervisors has the statutory authority under the provisions of the Constitution of Texas as a Conservation and Reclamation District to significantly influence operations. This authority includes, but is not limited to, adoption of the budget, control over all assets, including facilities and properties, signing contracts, and developing the projects to be completed and maintained.

Accountability of fiscal matters – The responsibility and accountability over all funds is vested in the Board of Supervisors.

Component Units – There are no component units which should be included in the financial statements.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The District's financial statements are prepared in accordance with generally accepted accounting principles ("GAAP"). The Governmental Accounting Standards Board (the "GASB") is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations). Governments are also required to follow the pronouncements of the Financial Standards Board issued through November 30, 1989 (when applicable) that do not conflict with or contradict GASB pronouncements.

Financial reporting information pertaining to the district's participation in the Texas County and District Retirement System ("TCDRS") is prepared in accordance with Governmental Accounting Standards Board ("GASB") Statement No. 68, *Accounting and Financial Reporting for Pensions*, as amended by GASB Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date*.

**BROOKSHIRE-KATY DRAINAGE DISTRICT**  
**NOTES TO FINANCIAL STATEMENTS**  
**SEPTEMBER 30, 2025**

(Continued)

The fiduciary net position, as well as additions to and deductions from the fiduciary net position, of TCDRS have been determined on the same basis as they are reported by TCDRS. The financial statements were prepared using the accrual basis of accounting. Member and employer contributions are recognized when due, pursuant to formal commitments and statutory requirements. Benefits and refunds of employee contributions are recognized when due and payable in accordance with the statutes governing TCDRS. Expenses are recognized when the liability is incurred, regardless of when payment is made. Investments are reported at fair value on a trade date basis. The fiduciary net position is reflected in the measurement of the district's net pension liability, deferred outflows and inflows of resources related to pensions, and pension expense.

Basic Financial Statements

The District's basic financial statements include both government-wide (reporting the District as a whole) and governmental fund financial statements (reporting the District's funds). A reconciliation between the fund and the government-wide financial data is presented in a statement following each government fund financial statement.

The government-wide financial statements (i.e., the statement of net assets and statement of activities) report information on all the non-fiduciary activities of the District. The effect of interfund activity has been removed from these statements. The District's net assets are reported in three parts – invested in capital assets, net of related debt; restricted net assets; and unrestricted net assets. The District first utilizes restricted resources to finance qualifying activities. The government-wide statement of activities reports the components of the changes in net assets during the reporting period.

The financial transactions of the District are reported in individual funds in the fund financial statements. Each fund is accounted for in a separate set of self-balancing accounts that comprises its assets, liabilities, fund balances, revenues and expenditures and changes in fund balances. The District's fund balances are reported as reserved or unreserved. Fund balances are reserved to indicate that portion of the fund balance which is not available for expenditure or is legally segregated for a specific future use. The District's Board of Supervisors may reserve funds for a specific use by Board action in its Board meetings. The District first utilizes reserved resources to finance qualifying activities. The District's Board of Supervisors is responsible for forming and creating funds. The transactions of the District are accounted for in the following funds:

*General Fund* - To account for all revenues and expenditures not required to be accounted for in other funds.

*Grant Fund* – To account for all revenues and expenditures related to grants received by the District.

*Building Fund* - To account for all revenues and expenditures related to the building of a new administration building.

*Capital Improvements Fund* - To account for all revenues and expenditures related to District capital improvements in excess of \$50,000.

Basis of Accounting

The government-wide statements are reported using the economic resources measurement focus and the accrual basis of accounting which recognizes all long-term assets and receivables as well as long-term debt and obligations. Revenues are recorded when earned and expenses are recorded when a liability is incurred regardless of the timing of related cash flows. Ad valorem property taxes are recognized as revenues in the fiscal year for which they have been levied and related penalties and interest are recognized in the fiscal year in which they are imposed. An allowance for credit losses is estimated for delinquent property taxes and reported in the financial statements. As of September 30, 2025, this allowance is \$22,143.

**BROOKSHIRE-KATY DRAINAGE DISTRICT**  
**NOTES TO FINANCIAL STATEMENTS**  
**SEPTEMBER 30, 2025**

(Continued)

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available if they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. Expenditures generally are recorded when the liability is incurred except for principal and interest on bonds payable which are recorded only when payment is due.

Interfund Activity

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are reported as interfund receivables or payables, as are all other outstanding balances between funds. Operating transfers between funds represent legally authorized transfers from the fund receiving resources to the fund through which the resources are to be expended. In the current year, the Board approved transfers to fund the building of the new administration building and to fund the matching portion of the grant (see note 10).

Receivables

In the fund financial statements, ad valorem taxes and penalties and interest are reported as revenues in the fiscal year in which they become available to finance expenditures of the fiscal year for which they have been levied.

Deferred Tax Revenues

The District defers the recognition of property taxes that are unreserved and outstanding for in excess of one year. These “deferred taxes” will be reported when collected or reserved as uncollectible in future years. It has been the District’s experience that the “availability” of taxes over one year old is not absolute.

Capital Assets

Capital assets, which include property, plant, equipment, and immovable public domain or “infrastructure” assets are reported in the government-wide financial statements. Capital assets are defined by the District as assets with an initial individual cost of more than \$1,000 (including installation costs, if any, and associated professional fees) and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed by the District. Donated capital assets are recorded at historical cost. Additions, improvements and other capital outlays that significantly extend the useful life of an asset or increase the value of an asset are capitalized. Cost incurred for repairs and maintenance are expensed as incurred. All fixed assets and depreciation expense belong to the General Fund or Building Fund. During this year, the District has continued work on its new administration building. This building will not be depreciated until complete and placed in service.

Depreciation on capital assets is computed using the straight-line method over the following estimated useful lives:

Infrastructure	5-12 Years
Furniture & Fixtures	7 Years
Equipment	12 Years
Tools	7 Years
Trucks & Trailers	5 Years
Building	50 Years
Improvements	10 Years

**BROOKSHIRE-KATY DRAINAGE DISTRICT**  
**NOTES TO FINANCIAL STATEMENTS**  
**SEPTEMBER 30, 2025**

(Continued)

Long-term Liabilities

Long-term debt and other long-term obligations are reported in the government-wide financial statements. Bond premiums and discounts as well as insurance costs are deferred and amortized over the life of the bonds. Bonds payable are reported net of the applicable premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt. If bonds are refunded and the carrying amount of the new debt is different than the net carrying amount of the old debt, the difference is netted against the new debt and amortized using the effective interest method over the shorter of the remaining life of the refunded debt or the life of the new debt issued.

In the fund financial statements, governmental funds recognize bond premiums and discounts, as well as bond issuance cost, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as expenditures of the fund from which they are paid.

Budgets

The District follows these procedures in establishing the budgetary data reflected in the financial statements:

1. Prior to October 1, the Board of Supervisors prepares and adopts an operating budget for the fiscal year commencing October 1. The operating budget includes proposed expenditures and the means of financing them. The budget for the General Fund is adopted on a basis consistent with generally accepted accounting principles (GAAP). The Board does not formally adopt a budget for the Grant Fund, Building Fund, or Capital Project Funds.
2. Budget amounts are as originally adopted, or as amended. Individual amendments were not material in relation to the original appropriations.
3. The Budget is based upon the estimated collection of taxes provided by the current tax levy. The Budget is a process of estimation by the Board of Supervisors to aid them in decisions throughout the year, and adhering to it is not mandatory.

NOTE 3 - CAPITAL ASSETS

On September 30, 2025, "Invested in Capital Assets" was \$4,413,149. Capital asset activity for the year then ended is summarized in Schedule E. All capital asset activity belongs to the General Fund or the Building Fund.

NOTE 4 - CASH AND CASH EQUIVALENTS

All cash is held in financial institutions with FDIC coverage. As of September 30, 2025, \$6,308,684 in cash was above the FDIC insurance threshold. The full amount of \$6,308,684 was secured by a collateral agreement with a financial institution. The financial institution has pledged securities held by the financial institution.

NOTE 5 - INVESTMENTS

The District's Investment Policy states the primary investment objectives are to maintain the safety and liquidity of investments. The District will design its investments to obtain an optimum rate of return and diversification within the constraints of safety and liquidity. Authorized investments include obligations from or guaranteed by the United States, certificates of deposit, and public funds investment pools.

**BROOKSHIRE-KATY DRAINAGE DISTRICT**  
**NOTES TO FINANCIAL STATEMENTS**  
**SEPTEMBER 30, 2025**

(Continued)

Investments are made in certificates of deposit or in TexPool. The State Comptroller of Public Accounts exercises oversight responsibility over TexPool, the Texas Local Government Investment Pool. Oversight includes the ability to significantly influence operations, designation of management and accountability for fiscal matters. Additionally, the State Comptroller has established an advisory board composed of both Participants in TexPool and other persons who do not have a business relationship with TexPool. The Advisory Board members review the investment policy and management fee structure. Finally, TexPool is rated AAA by Standard & Poors. As a requirement to maintain the rating weekly portfolio, information must be submitted to Standard & Poors, as well as the office of the Comptroller of Public Accounts for review. TexPool operates in a manner consistent with the SEC's Rule 2a7 of the Investment Company Act of 1940. TexPool uses amortized cost rather than market value to report net assets to compute share prices. Texpool does not have limitations or restrictions on withdrawals.

Accordingly, the fair value of the position in TexPool is the same as the value of TexPool shares.

Investments stated at cost consisted of the following:

Cash in TexPool Fund	\$ 3,372
Certificates of Deposit	<u>1,544,869</u>
Total Investments	<u>\$ 1,548,241</u>

Of the certificates of deposit listed above, \$0 was not covered by FDIC insurance.

Fair Value Measurement

GASB 72 requires that certain assets and liabilities be reported at fair value in the financial statements. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (exit price). The District has estimated fair value of its financial instruments by utilizing observable market data when available, or models that utilize observable market data to estimate fair value. In addition to market information, the District incorporates transaction specific details that, in management's judgment, market participants would utilize in fair value measurement.

The three levels of the fair value hierarchy are as follows:

Level 1 - Quoted prices in active markets for identical assets or liabilities that can be accessed as of the reporting date.

Level 2 - Pricing inputs other than quoted prices included in Level 1, which are either directly or indirectly observable. These include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the asset or liability, and market-corroborated inputs.

Level 3 - Unobservable inputs for the asset or liability, whereby assumptions that market participants would use is based on the best information available. The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value at September 30, 2025. There have been no changes in methodologies used.

**BROOKSHIRE-KATY DRAINAGE DISTRICT  
NOTES TO FINANCIAL STATEMENTS  
SEPTEMBER 30, 2025**

(Continued)

*Certificates of Deposit:* Valued at cost plus earned interest at year-end which approximates market value.

*External Investment Pool:* Valued at amortized cost which approximates market value.

The fair values of the District’s investments were valued based on the inputs at September 30, 2025 and are as follows:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Certificates of Deposit	\$ 1,544,869	-	-	\$ 1,544,869
External Investment Pool	<u>3,372</u>	<u>-</u>	<u>-</u>	<u>3,372</u>
Total Investments	<u>\$ 1,548,241</u>	<u>-</u>	<u>-</u>	<u>\$ 1,548,241</u>

NOTE 6 – PROPERTY TAX

Key dates in the property tax calendar are as follows:

- A. Levy date – October 1
- B. Due date – October 1
- C. Collection dates – October 1 through January 31
- D. Lien date – February 1

The Assessor – Collector of Taxes of Waller County is the Assessor – Collector of Taxes for the District. All records of property ownership, property levies, payment, collection, and delinquencies are maintained by Waller County. Taxes are levied and collected under the provisions of the General Laws applicable to fresh water districts, and when an election is required by the General Laws before taxes may be levied, the District must hold an election. The total amount of taxes levied by the District for all purposes shall never in any one year exceed thirty-five cents on the one-hundred dollar valuation of taxable property within the District. The current year property tax description is as follows:

- A. Tax rate per \$100 of assessed valuation - \$ .0578
- B. Adjusted taxable valuation - \$9,360,225,686
- C. Amount of tax levy - \$5,398,869

NOTE 7 – PENSION PLAN

Plan Description

Brookshire-Katy Drainage District provides retirement, disability, and death benefits for all of its full-time employees through a nontraditional defined benefit pension plan in the statewide Texas County and District Retirement System (TCDRS). The Board of Trustees of TCDRS is responsible for the administration of the statewide agent multiple-employer public employee retirement system consisting of 554 nontraditional defined benefit pension plans. TCDRS in the aggregate issues a comprehensive annual financial report (CAFR) on a calendar year basis. The CAFR is available upon written request from the Board of Trustees at P.O. Box 2034, Austin, Texas 78768-2034.

The plan provisions are adopted by the governing body of the employer, within the options available in the Texas state statutes governing TCDRS. Members can retire at ages 60 and above with 10 or more years of service, with 30 years of service regardless of age, or when the sum of their age and years of service equals 80 or more. Members are vested after 10 years of service but must leave their accumulated contributions in the plan to receive any employer-financed benefit.

**BROOKSHIRE-KATY DRAINAGE DISTRICT**  
**NOTES TO FINANCIAL STATEMENTS**  
**SEPTEMBER 30, 2025**

(Continued)

Members who withdraw their personal contributions in a lump sum are not entitled to any amounts contributed by their employer.

Benefit amounts are determined by the sum of the employee's contributions to the plan, with interest, and employer-financed monetary credits. The level of these monetary credits is adopted by the governing body of the employer within the actuarial constraints imposed by the TCDRS Act so that the resulting benefits can be expected to be adequately financed by the employer's commitment to contribute. At retirement, death, or disability, the benefit is calculated by converting the sum of the employee's accumulated contributions and the employer-financed monetary credits to a monthly annuity using annuity purchase rates prescribed by the TCDRS Act.

Funding Policy

The employer has chosen a fixed rate plan under the provisions of the TCDRS Act. The plan is funded by monthly contributions from both employee members and the employer based on the covered payroll of the employee members. Under the TCDRS Act, the regular 6.75% contribution rate of the employer is a fixed percent. This year, the District's employer contribution rate was 9.00%. The employees fixed rate was 7.00% contribution rate payable by the employee members as adopted by the governing body of the employer. This regular contribution rate of the employer is not actuarially determined and is one of the rates that can be adopted in accordance with the TCDRS Act. However, the plan of benefits adopted by the employer at the time of plan inception or when benefit increases were adopted, was limited by the TCDRS Act to what the actuary determined could be adequately financed by the commitment of the employer to contribute the same amount as the employees. The employee contribution rate and the employer contribution rate may be changed by the governing body of the employer within the options available in the TCDRS Act.

If a plan has adverse experience, the TCDRS Act has provisions which allow the employer to contribute a fixed supplemental contribution rate determined by System's actuary above the regular rate for 25 years or to reduce benefits earned in the future.

Pension Liabilities, Pension Expenses, and Deferred Out Flows of Resources and Deferred Inflows

At September 30, 2025, the District recorded a liability of \$35,966 for the net pension liability. The net pension liability for the plan in total was measured as of December 31, 2024 and determined by an actuarial valuation as of that date. For the period ended September 30, 2025, the district recognized a pension expense of \$36,435.

As of December 31, 2024, there were 13 active employees, three inactive employees receiving benefits, and four inactive employees entitled to, but not yet receiving benefits.

**BROOKSHIRE-KATY DRAINAGE DISTRICT**  
**NOTES TO FINANCIAL STATEMENTS**  
**SEPTEMBER 30, 2025**

(Continued)

At September 30, 2025, we reported deferred outflows of resources and deferred inflows of resources from the following sources related to TCDRS pension benefits:

	<u>Deferred Outflows Of Resources</u>	<u>Deferred Inflows Of Resources</u>
Balance of Deferred Outflow and Inflows Due to:		
Differences between expected and actual experience	\$ 31,851	\$ -
Changes of assumption	-	2,122
Net difference between projected and actual earnings on pension plan investments	-	12,643
Employer contributions after the plan year-end	<u>61,278</u>	<u>-</u>
Total	<u>\$ 93,129</u>	<u>\$ 14,765</u>

A reduction to the net pension liability was recognized in the amount of \$61,278 for the contributions made subsequent to the measurement date. Other amounts reported as collective deferred (inflows)/ outflows of resources to be recognized in pension expenses:

Period Ending December 31:

2025	\$ (8,676)
2026	26,004
2027	(8,992)
2028	1,125
2029	7,625
Thereafter	<u>-</u>
	<u>\$ 17,086</u>

Actuarial Assumptions

Actuarial valuations of TCDRS involves estimates of the reported amount and assumptions about probability of occurrences of events far into the future. Examples include assumptions about future employment mortality and future salary increases. Amount determined regarding the net pension liability are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future.

Significant actuarial assumptions and other inputs used to measure the total pension liability:

Measurement Date	December 31, 2024
Valuation Date	December 31, 2024
Expected Return on Investment	7.50% net of administrative and investment expenses, including inflation
Inflation	2.50%

**BROOKSHIRE-KATY DRAINAGE DISTRICT  
NOTES TO FINANCIAL STATEMENTS  
SEPTEMBER 30, 2025**

(Continued)

Total Payroll Growth	4.7%
Future Salary Increases	4.7%, depending on age and service and including inflation.
Mortality Assumption Activities:	135% of the Pub-2010 General Retirees Table for males and 120% of the Pub-2010 General Retirees Table for females, both projected with 100% of the MP-2021 Ultimate scale after 2010.
Non-Disabled Retirees Beneficiaries and Survivors:	135% of the Pub-2010 General Retirees Table for males and 120% of the Pub-2010 General Retirees Table for females, both projected with 100% of the MP-2021 Ultimate scale after 2010.
Disabled Retirees:	160% of the Pub-2010 General Retirees Table for males and 125% of the Pub-2010 General Retirees Table for females, both projected with 100% of the MP-2021 Ultimate scale after 2010.
Changes in Actuarial Methods and Assumptions:	No changes in investment return and inflation assumptions were reflected
Discount Rate	The discount rate used to measure the total pension liability was 7.6% as of December 31, 2024, and is consistent with long-term expected geometric return on plan investments. The projection of cash flows used to determine the discount rate assumed that employer contributions would be made at the actuarially calculated rate computed in accordance with assumptions and methods stated in the funding policy adopted by the Board of Trustees, which requires payment of the normal cost and amortization of the unfunded actuarially accrued liability in level percent of employee payroll installments over 13.4 years utilizing a closed period, layered approach. Based on this assumption, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members.

Discount Rate Sensitivity

The sensitivity of the district's net pension liability to changes in the discount rate is presented below. The district's net pension liability calculated using the discount rate of 7.6% is presented as well as the net pension liability using a discount rate that is 1.0% lower (6.6%) or 1.0% higher (8.6%) than the current rate. The discount rate used in the prior year actuary report was 7.6%.

Discounted Rate	1% Decrease <u>(6.60%)</u>	Current Rate <u>(7.60%)</u>	1% Increase <u>(8.60%)</u>
Proportionate share of the net Pension Liability (Asset)	\$ 208,461	\$ 35,966	\$ (115,643)

(1) Includes inflation at the stated rate.

**NOTE 8 - Risk Management**

The District is exposed to various risks of loss related to torts; damage to, and theft or destruction of assets; errors and omissions; injuries to employees and natural disaster. During 2025, the District contracted with the Texas Water Conservation Association for liability, property, and crime damage. Coverages provided by the company are as follows:

Public Official Errors and Omissions Liability	\$ 10,000,000
Business Auto Coverage Liability Combined	10,000,000
Commercial General Liability	10,000,000
Commercial Property (Per occurrence)	2,596,001
Workers Compensation	Statutory
Employee Dishonesty (Per occurrence)	10,000

The District has had no significant reduction in insurance coverage from prior years. The District has had no settlements exceed insurance coverage for the past seven years.

**BROOKSHIRE-KATY DRAINAGE DISTRICT**  
**NOTES TO FINANCIAL STATEMENTS**  
**SEPTEMBER 30, 2025**

(Continued)

Enforcement Action Litigation

As of September 30, 2025, the District has filed suit against two property owners. These two lawsuits have enforcement agreements in place.

The first enforcement agreement requires a \$10,000 monthly payment to the District until all legal fees and District expenses related to the lawsuit are reimbursed, assessed civil penalties are paid, and the property is back into compliance. As of September 30, 2025, the property is in compliance with the enforcement agreement. Future legal fees may still be reimbursed.

The second enforcement agreement requires a \$7,500 monthly payment to the District until all legal fees and District expenses related to the lawsuit are reimbursed, assessed civil penalties are paid, and the property is back in compliance. As of September 30, 2025, the property is not yet in compliance and unreimbursed legal fees and District expenses in the amount of \$19,466 are recorded as an other receivable in the financial statements.

NOTE 9 - Lease Payable

In September 2024, the District acquired a wheel loader financed with a lease agreement for a period of 4 years at an interest rate of 6.99% and annual payments of \$59,270. The wheel loader was purchased for \$214,841 and is collateral for the lease payable.

During this fiscal year, the District chose to pay the remaining portion of the lease and purchase the asset. The final purchase of the asset was made from the General Fund. See Schedule G for a rollforward of the Lease Payable.

NOTE 10 – Grant Revenue

In October 2024, the District was awarded a grant to improve its drainage pathways in the amount of \$700,000. Per the terms of the grant, the District matched these funds with \$300,000. These funds are accounted for inside the Grant Fund.

NOTE 11 – Subsequent Events

Management has evaluated subsequent events through January 16, 2026, the date which the financial statements were available to be issued and has determined that no additional subsequent events require recognition or disclosure in these financial statements.

**Brookshire-Katy Drainage District**  
**Long-Term Expected Rate of Return**  
**For the Year Ended September 30, 2025**  
**Schedule K**

The long-term expected rate of return on TCDRS assets is determined by adding expected inflation to expected long-term real returns, and reflecting expected volatility and correlation. The capital market assumptions and information shown below are provided by TCDRS' investment consultant, Cliffwater LLC. The numbers shown are based on January 2025 information for a 10-year time horizon.

Note that the valuation assumption for long-term expected return is re-assessed in detail at a minimum of every four years, and is set based on a long-term time horizon. The TCDRS Board of Trustees adopted the current assumption at their March 2021 meeting. The assumption for the long-term expected return is reviewed annually for continued compliance with the relevant actuarial standards of practice. Milliman (TCDRS actuary) relies on the expertise of Cliffwater in this assessment.

**INDEPENDENT AUDITOR’S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING  
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS  
PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

**Board of Supervisors  
Brookshire-Katy Drainage District  
Waller County  
Brookshire, Texas**

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Brookshire-Katy Drainage District (“District”) as of and for the year ended September 30, 2025, and the related notes to the financial statements, which collectively comprise the District’s basic financial statements, and have issued our report thereon dated January 16, 2026.

**Report on Internal Control over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the District’s internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District’s internal control. Accordingly, we do not express an opinion on the effectiveness of the District’s internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements, on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity’s financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

**Report on Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the District’s financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

**Purpose of This Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity’s internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity’s internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
