

BROOKSHIRE-KATY DRAINAGE DISTRICT AS-BUILT CERTIFICATE

I, _____, a registered Professional Engineer duly licensed to practice in the State
(Name)

of Texas do hereby certify that the development, _____,
(Project Name)

located at _____, was constructed in accordance with Brookshire-Katy
(Project Address/Legal Description)

Drainage District's (District) Rules and Regulations, the approved plans, and specifications, under the District's

issued Permit No. _____.
(BKDD Permit #)

This certificate verifies the following items:

1. Detention volume and location built per approved plans.
2. Outfall structure, restrictor pipes, and erosion protection measures installed per approved plans.
3. Pilot channels installed per approved plans.
4. Extreme event swales, on-site drainage swales, channels, and ditches installed per approved plans.
5. Fill/Excavation quantities and locations per approved plans.
6. (If applicable) The pumped detention system is installed and operating per approved plans.
7. The receiving body of water at the site's outfall was restored to existing or better conditions as compared to the pre-construction of referenced development.
