NOTE:

1. The District will **ONLY** route the plans/plats for review once the complete permit package has been accepted (including all required fees paid in full). Please refer to the District's [Guidelines for Permitting Submittal & Review Process](#).
2. Regarding Estimated Drainage Construction Cost - in lieu of awarded contractual amount for the proposed project, provide preliminary drainage construction costs from a licensed professional engineer.
3. A new permit package is required, and a second fee equal to the original fee will be charged for the following resubmittal:
 - When the applicant, developer, or developer's engineer makes significant changes (i.e., modifications to the tract acreage, proposed drainage improvements) to the initial submittal.
 - When the applicant, developer, or developer's engineer changes a plat, set of drainage plans, and/or drainage report after a permit application is approved by the Board or a no objection letter has been issued.
